Subject: RE: Cover for EPA report
Attachments: 420r16014.pdf

Rob,
Manufacturers have been added to the cover.
Attached and prepared for posting on the Web:
EPA-420-R-16-014
Greenhouse Gas Emission Standards for Light-Duty Vehicles: Manufacturer Performance Report for the 2015 Model Year
File is 1,397 KB and 104 pages.

The report looks GREAT – from a graphics standpoint!!! Beautiful!

Subject: RE: Cover for EPA report

Here's the final final version (we hope!).

For the list of manufacturers on the cover, let's go with approach #2, an aggregate of all manufacturers that have been or are in the program. To do this, just add:

- Coda
- Fisker
- Porsche

Thanks!

Thanks Rob,

I will be preparing the report for the Web later this afternoon.

Are we OK with the listing s of the auto manufacturers on the front cover – add or delete any of them?

Hi Gwen,

Here's the GHG report ready to go final.

I understand now that release of this report (and Trends) is Wednesday, not Tuesday.

Thanks, and let me know if you need anything.

Rob,

Thank you for the update....I understand the "changes" thing, quite well. I knew eventually you would find me!

Just to reassure you that once the report comes my way - you are at the top of my list. I received a new edition of the TRENDS report today, and am finalizing. So I'm ready for yours. Take care....

Thank you, Gwen. This looks fine. Given that you all have probably heard that we are releasing this report, along with the Trends report, this coming Tuesday, you are probably wondering where my report is for formatting. Unfortunately, I have had some late-breaking issues with two manufacturers, one of which was resolved yesterday and the other today. However, these issues, and the changes precipitated by them, have ripple effects throughout the report. I have almost caught up everything, and plan to print the document and read it one more time tonight. First thing tomorrow morning I will fix anything I have found, then forward the document to you folks for formatting and webifying.

Thanks,
Rob

Subject: RE: Cover for EPA report

All,

I am tumbling (or fumbling) towards completion of the next iteration of this report. Gwen, can you modify the cover for me such that it says 2015 instead of 2014? I've attached last year's cover.

I'm too buried in the report itself right now to give these other things thought, but I know I'll need a publication number and we'll need to modify the relevant web pages.

Modifications will be needed on these pages:

<https://www3.epa.gov/otaq/regs/ld-hwy/greenhouse/ld-ghg.htm>

<https://www3.epa.gov/otaq/climate/ghg-report.htm>

This could go live as early as next Tuesday the 25th, although it is also possible it will be the following week.

Thanks,
Rob

Gwen,

The 2014 version of the GHG report is currently scheduled to be released sometime during the week of Dec. 14. We do not have a specific date yet.

You have created the cover for past reports, and I'm hoping you can do it for this year as well. This year the cover should look the same except for the following changes:

1. Change "2013" to "2014"
2. Change "Chrysler" to "Fiat Chrysler"
3. Delete "Porsche" (now part of VW)
4. Delete "Coda"
5. Delete "Fisker"
6. Add "BYD Motors"
7. Add "Hyundai"
8. Add "Kia"
9. Sort the manufacturers however you see fit, and propose any changes you think might improve the page.

I have attached the cover from last year in case you don't have it handy.

I will submit a publication request shortly, and will also work with Holly to get website revisions staged.

Thanks,
Rob

All,

At the end of this month we anticipate publishing the 2013 GHG Manufacturer Performance Report. While we will have more for you all later, including web revisions and document prep, I wanted give you a brief heads-up that this will be coming. I will also need the cover updated, not just with the 2013 model year instead of 2012, but I need to add three manufacturers to the list on the page: Aston Martin, Lotus, and McLaren.

Thanks, and let me know if you need anything for me.

Gwen,

This report will be done today, and I believe will need to be up and on the web on Thursday, though I don't know final timing yet. Erin Birgfeld is working with Trish on the web.

I like the option on the second page. Can you prep that one and have it ready. I will send the final report for formatting before lunch today. Please add two manufacturers to the list on the cover: Coda and Ferrari.

Thanks,
Rob

Subject: RE: Cover for EPA report

Good Morning Rob,

COVER IDEAS...

Having read the Executive summary, my designs went in the direction of "simplified" representation. I have attached 5 Cover Samples for your review;

Overall - I chose to highlight the year "2012", having read that you intend to report annually on the status of manufacturers/compliance with the program, and this could be changed out with the years, very nicely.

Sample 1 -2 - similar to one another, the only change was in the font used for the title and the running list of manufacturers on the right hand side is spaced out more(sample 2). If the list of manufacturers names is a bad idea, we could substitute numbers(net 2012 credits -Mg). These lists are being used "graphically" not as "information". Also, I felt if I used any one item "graphically" from the graph cover picture (off cycle credits, methane, arrow boxes, etc) it would not be a balance representation of the report, so I chose not to do this.

Sample 3 – I used the graph-A/C credits as a graphic image – providing a splash of color..

Sample 4 - 5 – I used the "graphic" that you had on the cover sent to me -It is very busy for a cover picture, used large – but as a "graphic symbol" it can work – if it is used small – maybe even smaller than I have it.

NOTE:

Please feel free to spend some time with the cover designs.

Pin them up on your wall and tell me what you like/don't like, or if you have any ideas (elements) that you would like to incorporated into any one particular design.

We can meet and discuss after that.

Subject: Cover for EPA report

Gwen,

I'll be finalizing a report in the next few weeks, not unlike the Trends report for which you designed the cover. Jennifer said you could come up with some cover concepts for my report.

I've attached my report, with the cover that I made (based on an original and more complicated graphic that was done by Amy Bunker and is in the body of the report), but I've been told that it's too detailed for the cover. I don't really have any other great ideas. The report is about the compliance of auto companies with EPA greenhouse gas emission standards for the 2012 model year. You might read the Executive Summary to see if it prompts any ideas. I'm open to pretty much anything at the moment, so feel free to bounce anything off me.

Thanks,
Rob

Subject: RE: disclaimer for EPA report

Okay, thanks.

I am told that Gwen did the cover for Trends. I have a figure in my report that I have simplified and thrown on a concept cover for some added bling, but it's still a little too complex (or so I'm told). I wonder if Gwen could think about some ideas? I could send the current concept and the Executive Summary which might help with some ideas.

Hi Rob — Yes, that's the correct disclaimer that we use on reports. When you send the file to Gwen Dietrich/David Levin for formatting (which includes adding the cover), just tell them that you want the standard report disclaimer on the inside title page. Or you can put it on your cover page and they'll know I suppose.

Jennifer

Subject: disclaimer for EPA report

Jennifer,

We will soon be releasing the 2012 light-duty GHG report. I pulled a disclaimer from the latest Trends Report, but wanted to check to see if there was something better and/or more current.

This is what I have right now:

NOTICE:

This technical report does not necessarily represent final EPA decisions or positions. It is intended to present technical analysis of issues using data that are currently available. The purpose in the release of such reports is to facilitate the exchange of technical information and to inform the public of technical developments.

Thanks,
Rob
